

**ST ALOYSIUS'
COLLEGE**

Job Title	Teacher of Computing Fixed term, part time post from August 2026 (0.4 FTE until June 2027)
Reporting to	Head of Department – Computing

Job Purpose

To provide effective learning, teaching, and pastoral care for our students. To carry out related activities and developments following local, national, and school policies under the direction of the Principal.

To develop lessons that will inspire and motivate pupils to reach their full potential.

Main Teaching Duties and Responsibilities

- Teaching assigned classes together with associated preparation
- Delivering a curriculum that engages and motivates students
- Supporting and assisting in the development of aspects of the departmental improvement plan
- Assessing, recording and reporting on the work of pupils
- Preparing pupils for examinations in line with latest guidance
- Providing advice and guidance to pupils on issues related to their education
- Promoting and safeguarding the health, welfare and safety of pupils
- Working in partnership with other teachers to ensure a seamless transition for shared classes
- Working in partnership with parents, support staff and other professionals
- Undertaking appropriate and agreed continuing professional development
- Participating in issues related to school planning, raising achievement and individual review
- Contributing to the wider needs of the school and to the spiritual and religious experience of pupils

The Person

The successful candidate for this post will be confident teaching Computing at all levels up to and including Advanced Higher.

Across S1 and S2, pupils experience a broad curriculum spanning programming, web design, graphics, computer systems, data science, cloud computing, accessibility,

cyber security and artificial intelligence. The curriculum is reviewed and refreshed regularly so that what pupils learn keeps pace with the real world, and computational thinking sits at the core of everything we teach, from S1 through to Advanced Higher.

Pupils work with block-based coding in S1 before moving on to Python, SQL, HTML, CSS and JavaScript as they progress through the school. The department prides itself on outstanding SQA results, but equally important to us is fostering genuine curiosity and enthusiasm for all things Computing.

Staff are encouraged to develop lessons that will inspire and motivate pupils to reach their full potential. We would look to the successful candidate to pursue a variety of pedagogical approaches in class and develop resources to support lessons and courses. **St Aloysius' College also encourages staff to take advantage of continuous** life-long professional learning opportunities to update their skills and improve their knowledge.

Qualifications and Experience

Essential

- Degree level in Computing
- GTCS Registration in Computing
- Relevant current teaching qualification
- Evidence of an ability to plan coherent progressive and stimulating teaching programmes matched to individual pupils' needs
- Ability to incorporate a range of innovative and creative teaching strategies and methodology
